

FEDERAL INSECTICIDE, FUNGICIDE AND RODENTICIDE ACT
GOOD LABORATORY PRACTICE STANDARDS
INSPECTION REPORT

- I. Facility Name: BioScience Laboratories, Inc.
300 N. Wilson Ave. Suite 1
Bozeman, Montana 59715
- Date of Inspection: September 1 and 2, 2009
- II. Inspection ID: 20094954997
- III. Inspector: Mark J. Lehr, LDIB, Denver, Colorado
- IV. Reason for Inspection: Neutral Scheme/GLP/Books and Records
- V. Facility Compliance Review was conducted.

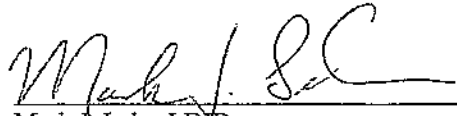

<u>Test Substance</u>	<u>Study Title</u>	<u>Lab ID. No.</u>	<u>MRID No.</u>	<u>Sponsor & Registrant</u>
Hydrogen peroxide	A Hard Surface	090353 204	N/A	Tally Environmental Care
Peracetic Acid	Disinfection			Limited
	Evaluation			Premier Way, Abbey Park
	Of One Test			Industrial Estate
	Formulation			Romsey, Hampshire
	Versus Six			S051 9DQ
	Bacterial and			England
	Yeast Species			

No adverse regulatory findings.

VI. Data Audits

<u>Test Substance</u>	<u>Study Title</u>	<u>Lab ID. No.</u>	<u>MRID No.</u>	<u>Sponsor & Registrant</u>
Quaternary Ammonium	An Evaluation	080634-204HH	47644221	Stepan Company
	Of The Sanitizing			22 W. Frontage Road
	Efficacy of One (1)			Northfield, IL 60093
	Product For Use on			
	Non-Food Contact Surfaces			
Quaternary Ammonium	An Evaluation	080634-204FF	47644211	Stepan Company
	Of The Sanitizing			22 W. Frontage Road
	Efficacy of One (1)			Northfield, IL 60093
	Product For Use on			
	Non-Food Contact Surfaces			
Quaternary Ammonium	An Evaluation	080634-204F	47633609	Stepan Company
	Of The Sanitizing			22 W. Frontage Road
	Efficacy of One (1)			Northfield, IL 60093
	Product For Use on			
	Non-Food Contact Surfaces			
Quaternary Ammonium	An Evaluation	080634-204GG	47644220	Stepan Company
	Of The Sanitizing			22 W. Frontage Road
	Efficacy of One (1)			Northfield, IL 60093
	Product For Use on			
	Non-Food Contact Surfaces			

VII. Comments: **No findings with respect to GLP regulatory issues.** Bioscience Laboratories is currently owned and managed by Dr. Daryl Paulson, President and CEO. Ms. Terri Eastman, Manager of the In Vitro Laboratory, acted as Study Director for all the studies reviewed by the inspector. Dr. John Mitchell, Director of QA, has extensive experience in Microbiology and acts as scientific advisor to laboratory technicians. However, the inspector observed good separation between BioScience Laboratory QA staff and the technical staff who are actively engaged in GLP studies being conducted at the facility.

Mark J. Lehr, LDIB
